About Me

Final-year BS Software Engineering student with hands-on experience in **MERN Stack** web development, using React.js, Node.js, Express.js, and MongoDB. Skilled in building full-stack applications with JWT authentication, REST APIs, and responsive UI using Tailwind CSS and Bootstrap.

I'm also experienced with Git/GitHub, version control, and Ubuntu for setting up and managing web hosting environments.

Qualifications

➤ UMT – (2022 – 2026)

○ BS Software Engineering

Core Courses

OOP, DSA, Database, Advanced Computer Networks, Machine Learning, Web Technologies

Experience

BolTech Solutions

Boot Camp Trainee

July 2024 – Oct 2024 3 Months

I have attended a Bootcamp of **Front-End (React Js)** stack gaining hands on experience by making web application with the guidance of seniors.

Topics Learned: React Hooks, React Router, Redux Toolkit, API, Axios, Authentication, JWT token, Form Handling

I REG-IT

Web Developer Intern

Sep 2023 – Nov 2023 2 Months

Responsibilities

- Designed responsive websites using WordPress
- Configured VPS and migrated websites from shared hosting
- Managed DNS settings and client website delivery
-

Skills

Languages: HTML, CSS, JavaScript, Python, SQL, C++, Java, C#

Frameworks & Libraries: React.js, Express.js, Tailwind CSS, Bootstrap

Tools: Git & GitHub, VS Code, Linux (Ubuntu & Kali), WordPress, Google Colab

Databases: MongoDB, MySQL, SQL Server

Soft Skills

Team Collaboration, Problem Solving, Communication, Time Management, Quick Learner

Projects

Student Management System: (MERN Stack)

- Encrypted Authentication & secure student CRUD operations
- Mark and view student attendance

Live at: <https://sms-one-phi.vercel.app/>

Country Atlas: (React Js)

- Fetched country data using API & Added region-based filtering
- Search by name, and A-Z sorting

Live at: <https://shahryar-sohail.github.io/CountryAtlas/>

Machine Learning & Ai:

- Cleaned datasets using NumPy and Pandas & Data Visualization using Matplotlib & Seaborn
- Applying models Linear , Logistic Regression , SVM , KNN using scikit learn

Live at: <https://github.com/Shahryar-Sohail/Machine-Learning>
